

ASCENSION EXPERIENCES

Ascension Experiences unleash very powerful psychic abilities - so it is a very important to savor and fully permeate each ability - talk about and describe them - inspect them fully - articulate them fully - take full ownership for them - take full responsibility for them - take full control of them - then savor them even more - plus articulate and talk about and describe them even more fully – observe the future consequences of having and operating with that ability.

AN UNCONTROLLED ASCENSION EXPERIENCE THAT CONTAINS TOO MANY UNKNOWN, SPIRITUAL ILLITERACY, AND THE LACK OF SPIRITUAL KNOWLEDGE

Any uncontrolled ascension that unknowingly re-awakens and returns your SPIRITUAL POWER or MASTERY experience, without handling areas of charge or omitted understanding of presence - love - truth - honor - codes - decency - kindness - compassion - knowledge - responsibility - control - integrity - intention - freedom - power of choice – friendliness, and omitted role education, and with unknown, misdirected imagery, hidden intentions, hidden enemies, hidden agendas or hidden programs is hazardous and can act as a two edge sword with the possibility of not only empowering your good intentions but can also simultaneously empower your destructive intentions thus causing you to have the potential to destroy your and all those you are connecting to's future success, prosperity, and happiness.

AN OPTIMALLY CONTROLLED ASCENSION EXPERIENCE CONTAINING SPIRITUAL LITERACY AND SPIRITUAL KNOWLEDGE

A controlled ascension that knowingly awakens and returns your SPIRITUAL POWER and naturally evolves onward to MASTERY experiences, with ALL areas of charge erased, empowered with your full understanding of presence - love - truth - honor - codes - decency - kindness - compassion - knowledge - responsibility - control - integrity - intention - freedom - power of choice – friendliness – must also include full role education, and known projected positive imagery, known intentions, known friends, known agendas with known programs is essential to you and all those you are connecting to will if applied bring into being and manifest your dream's ultimately causing you and those connected to you to have a great amount of future success, prosperity, and happiness.

There are four aspects to an Ascension Experience:

- 1. Three dimensional holographically fully Formed, Articulated and fully Owned Knowledge = VISION.**
- 2. Three dimensional holographic fully Formed and Articulated steps with full Responsibility of how to get from where you are in life to causing the Vision to become an Actuality = PLANNING.**
- 3. Three dimensional holographic fully Formed and Articulated steps with full Responsibility and the ability to go into action in the 3 dimensional holographic operating space of the physical universe with the correct order of importance and sequence of “concept - start – change – complete” (Control) on each step of the PLAN = IMPLEMENTATION.**
- 4. The VISION becoming a completed wholly duplicated 3 dimensional holographic actuality in the physical universe = RESULTS.**

KNOWLEDGE (Spirit) – RESPONSIBILITY (Mind) – CONTROL (Body) = INTEGRITY (Product).
