

HANDLING ABUSE ON NEW PUBLIC

It is possible the client could handle the abuse BPC they have either by picking up *the earliest instance of it (basic)* or *most important one their attention is stuck* on and having them describe it and deal with it just as we deal with **“Holographic Incident Handling Process.”**

Where they have been affected by make wrong, and given wrong items/indication, or invalidation of their truth, powers and abilities . . . one could have them *articulate the exactness* of the wrong item/invalidation, negative process run on them . . . and ask them: **“Is that the truth of you or the matter or situation?”**

When they spot “it” is not the truth and are rejecting the false, one can then gently ask: **“So, what is the truth of the matter?”**.

What you are after here is *the rejection of the false and negative wrong items, and the restoring THEIR certainty of their truth, power and ability.*

That is, we are restoring the truth by having them spot and rejecting the lies.

We could also run **“Get the idea of (positive item)”** . . . like: *“get the idea of being competent, confident, and accomplished”* . . . this after we have removed sufficient of the charge and negative.
